

Conference program

Organized by HOMETRICA CONSULTING - Dr. Nicola D'Apuzzo

www.3dbodyscanning.org

Conference description

The conference topics cover relevant sectors of 3D body scanning, as digital anthropometry, face and body scanning for medicine, body and foot scanning for fashion and apparel, body size measurement campaigns and development of 3D body scanning systems.

Conference site Lugano - Swiss Mediterranean Style!

Lugano is situated in Ticino, an alpine canton in the South of Switzerland. This quiet, compact city of spacious parks lies on the shores of beautiful Lake Lugano, in an unspoilt landscape of lush hills and wild, remote valleys. With mediterranean flair, Lugano offers all the advantages of a world-class city, combined with the cachet of a small town. Lugano is extremely easy to reach by public or private transportation; it is situated 70 km from Milan Malpensa airport connected with a shuttle service and 200 km from Zurich airport with connections by rail.

Conference venue:

The conference will take place at the Lugano convention centre which is centrally located, right next to the splendid municipal park, directly on the lake shore and within walking distance of many hotels.

Tourist information and accommodation:

Lugano offers a wide range of accommodation. A list of selected hotels is available at the conference's website. Further information may be obtained from Lugano tourism at: www.lugano-tourism.ch

Conference Fees

Participant: 550 CHF, Presenting author: 450 CHF, Student: 350 CHF

The conference fees include admission to all the technical sessions and the accompanying exhibition, coffee breaks and a copy of the proceedings.

More information www.3dbodyscanning.org/2010

Tuesday 19th October 2010

08:00-09:00 **Registration – Welcome desk**

09:00-10:00 **Opening Session – Room B1**

Welcome speech from the conference director
Nicola D'APUZZO, Hometrica Consulting, Switzerland

Ticino: platform for international companies
Luca NONELLA, Canton Ticino, Switzerland (#58)

Relating linear and volumetric variables through body scanning to improve human interfaces in space
Sarah MARGERUM, NASA Johnson Space Center, USA (#15)

10:00-10:30 **Coffee Break – Foyer**

10:30-12:30 **Technical Session 1: Medical scanning systems – Room C**

Chair: Prof. S. Bergé
University of Nijmegen (NL)

Application of stereo photogrammetry in medicine
Chris LANE, 3dMD, USA (#60)

Innovative 3D spine form analysis and parametrization of scoliosis, lordosis, kyphosis and malposition with TERGOSKOP
Lothar PAUL, GFaI, Germany (#03)

3D digitizing device applied in evaluation and simulation of postoperative trunk surface shape in adolescent idiopathic scoliosis
Li SONG, Creaform, Canada (#52)

Optical 3D in vivo skin imaging for topographical quantitative assessment of cosmetic and medical treatments
Christian BENDEROTH, GFM, Germany (#29)

3D Face measurement and scanning using digital close range photogrammetry: evaluation of different solutions and experimental approaches
Luigi M. GALANTUCCI, Politecnico di Bari, Italy (#34)

10:30-12:30 **Technical Session 2: Body scanning for apparel I – Room B1**

Chair: Prof. S. Ashdown
Cornell University (USA)

Keynote presentation:
 Perfect garment fitting using 3D body scanning
Ran Machtinger, OptiTex, Israel (#40)

The solution of a clothing mass customization program
Jocelyn BELLEMARE, Université du Québec à Montréal, Canada (#43)

Three dimensional (3D) body scanner for apparel shoppers would make commerce easier
Marie-Eve FAUST, Philadelphia University, USA (#53)

Made-to-measure garments in 3-D
Jochen BALZULAT, Human Solutions, Germany (#61)
Wolfgang SEEBAUER, Odermark, Germany

12:30-13:30 **Lunch Break – Restaurants, cafes and bars in the surroundings of the convention center**

13:30-15:00 Technical Session 3: Medical applications I – Room C

Chair: C. Lane
3dMD (USA)

Keynote presentation:

Three-dimensional surface imaging - an objective approach of quality assurance in facial plastic, reconstructive and aesthetic surgery?
Computer-assisted intuitive breast surgery planning using three-dimensional surface imaging

Laszlo KOVACS, Computer Aided Plastic Surgery, TU München, Germany (#22,23)

3D in forensics: TIM synthetic MRI and virtobot – forensic workflow of the future

Michael THALI, VIRTOPSY, University of Bern, Switzerland (#51)

Optimization of three-dimensional imaging of the breast region with 3-D laser scanners

Maximilian EDER, Computer Aided Plastic Surgery, TU München, Germany (#21,24)

13:30-15:00 Technical Session 4: Body scanning for apparel II – Room B1

Chair: Dr. M. Fralix
[TC]² (USA)

Apparel: from reality to virtual reality

Jean-Marc SURVILLE, Lectra, France (#41)

Research in body/garment relationships

Susan P. ASHDOWN, Cornell University, USA (#16)

Quantitative analysis of the air gap between the skin and the clothing

Joanna FRACKIEWICZ-KACZMAREK, EMPA, Switzerland (#38)

Quantitative analysis of breast shapes

Rong ZHENG, Beijing Institute of Fashion Technology, P.R. China (#46)

15:00-15:30 Coffee Break – Foyer

15:30-17:00 Technical Session 5: Foot scanning – Room C

Chair: Prof. M. Black
Brown University (USA)

ERTLENZ | Experiences from scaling up a shop-in-shop system for mass customized high performance sports shoes

Dirk RUTSCHMANN, corpus.e, Germany (#07)

Recommendation system for sizing of children's footwear

Ales JURCA, UCS, Slovenia (#49)

Design criteria for combat boots based on the evaluation and analysis of human factors

Laura PÉREZ, Universidad de los Andes, Colombia (#47)

Laser based three-dimensional measurement of entire foot shape during motion

Matiya JEZERŠEK, University of Ljubljana, Slovenia (#28)

15:30-17:00 Technical Session 6: Full body scanning – Room B1

Chair: L. Paul
GFal (D)

3-D Photonic scanning for health research and practice

Jonathan WELLS, UCL Institute of Child Health, UK (#06)

The body volume index (BVI): using 3D scanners to measure and predict obesity

Richard BARNES, Select Research, UK (#13)

An overview of 3D body scanning applications in Thailand

Supiya CHAROENSIRIWATH, NECTEC, Thailand (#27)

Mass implementation of 3D body scanners for human body measurement for applications in apparel, fashion, anthropometrics, health, fitness and entertainment

David BRUNER, [TC]², USA (#55)

Achieving medical-grade quality 3D body scans in a high-throughput environment

Chris LANE, 3dMD, USA (#67)

17:00-17:30 Break

17:30-19:00 Welcome cocktail – Foyer/Room B3

Welcome speech from the hosting city

Giorgio MARIC, Città di Lugano, Switzerland

08:30-10:30 **Technical Session 7: Medical applications II – Room C**

Chair: Prof. L. Galantucci
Politecnico di Bari (I)

3D optical body scanning: application to forensic medicine and to maxillofacial reconstruction
Franco DOCCHIO, University of Brescia, Italy (#33)

Breast volume measurements using 3-D surface imaging: a standardized validation of the introduced method and a comparison to classical approaches
Stefan RAITH, Computer Aided Plastic Surgery, TU München, Germany (#12)

3D-sensors for the all-around measurement of teeth, skin, face, and body
Gerd HAEUSLER, 3D-Shape / University Erlangen-Nuremberg, Germany (#63)

Objective 3-D breast symmetry evaluation for clinical application using three-dimensional laser light surface imaging
Fee ARMBRECHT, Computer Aided Plastic Surgery, TU München, Germany (#26)

3D and 4D surface image capture using passive stereo photogrammetry
Colin URQUHART, Dimensional Imaging, UK (#66)

08:30-10:30 **Technical Session 8: Body scanning systems – Room B1**

Chair: L. Paul
GFal (D)

A portable 3D body scanner
Hideto KAMESHIMA, Spacevision, Japan (#09)

Optical measurement of preselected individual body parameters, 3D curves and belt position for garment manufacturing and sales with BodyFit 3D
Lars KUNZE, GFal, Germany (#02)

Challenges and solutions in high resolution human body scanning
Aivaras GRAUZINIS, 4D Dynamics, Belgium (#45)

Body-ScanFit system
Leonardo FRANCESCHI, Cad Modelling Ergonomics, Italy (#56)

New age human body digitizing: easy, portable, quick
Sergey SUHOVEY, Artec Group, USA (#62)

10:30-11:00 **Coffee Break – Foyer**

11:00-12:30 **Technical Session 9: Face scanning – Room C**

Chair: Prof. G. Haeusler
University Erlangen-Nuremberg (D)

A computer-aided technique for planning plastic surgery based on 3D face scans: preliminary results
Matteo DE SIMONE, Politecnico di Torino, Italy (#54)

A simple and standardized method for analyzing head and face morphology of a population sample
Yohann KELKEL, Decathlon-Oxylane research, France (#44)

An open platform for 3D face recognition algorithms
Boulbaba BEN AMOR, Université Lille 1, France (#48)

Three-dimensional features for facial gestures simulation
Javier FINAT, University of Valladolid, Spain (#19)

11:00-12:30 **Technical Session 10: Digital anthropometry – Room B1**

Chair: Prof. A. Giachetti
University of Verona (I)

Keynote presentation:
HOAXY body shapes and fashion formula
Jean-Marc SURVILLE, Lectra, France (#39)

3D digital anthropometry using the BodySCAN
Carlo ZANCANARO, University of Verona, Italy (#05)

An introduction to BoSS-21 and a framework to build 3D surface of human models using anthropometric constraints
Shi YIN, VisImage Systems, Canada (#14)

iSize - Implementation of international anthropometric survey results for worldwide sizing and fit optimization in the apparel industry
Anke RISSIEK, Human Solutions, Germany (#64)

12:30-13:30 **Lunch Break – Restaurants, cafes and bars in the surroundings of the convention center**

13:30-15:00

Technical Session 11: Scanning technologies – Room C

Chair: Prof. G. Forlani
University of Parma (I)

Scanner killer technology - one scanner to rule them all
Helmut KUNGL, XYZ RGB, Canada (#59)

“Flying triangulation“ – acquiring the 360° topography of the human body on the fly
Svenja ETTL, University Erlangen-Nuremberg, Germany (#42)

Photogrammetric 3D body scanner for low cost textile mass customization
Gianluca PERCOCO, Politecnico di Bari, Italy (#10)

Design of a passive system for human body reconstruction in the fashion industry
Carla NARDINOCCHI, Università degli Studi di Roma “Sapienza”, Italy (#30)

13:30-15:00

Technical Session 12: Anthropometric survey – Room B1

Chair: J.M. Surville
Lectra (F)

Anthropometric survey of the Spanish female population aimed at the apparel industry
Sandra ALEMANYA, Universidad Politécnica de Valencia, Spain (#11)

Analysis of 3D body scanning for body measurement extraction considering the cultural context
Arzu VURUSKAN, Izmir University of Economics, Turkey (#20)

UK national sizing survey - SizeUK
Jennifer BOUGOURD, University College London, UK (#32)

DOROTHY mass foot measurement campaign
Ales JURCA, UCS, Slovenia (#31)

15:00-15:30

Coffee Break – Foyer

15:30-17:00

Technical Session 13: Processing of scan data – Room C

Chair: Prof. F. Docchio
University of Brescia (I)

Geometrical processing of 3D body scanner data for anthropometric applications
Andrea GIACHETTI, University of Verona, Italy (#08)

3D modeling and size adaptation of individual human body avatars from parametric measurement data for 3D construction and analysis tasks
Viktoriya KLEBAN, GFal, Germany (#04)

Touchless detailed 3D scan of human hand anatomy using time-of-flight cameras
Jochen PENNE, PMDTechnologies, Germany (#25)

An examination of the differences in the angles created in the lower and upper extremities during tennis serves by male and female players
Hakan KARABORK, Selcuk University, Turkey (#17)

15:30-17:00

Technical Session 14: Body scanning for apparel III – Room B1

Chair: Dr. J. Balzulat
Human Solutions (D)

Commercialising size survey data
 Size UK – The UK national size survey
Andrew CRAWFORD, Sizemic, UK (#37)

Everything in 3D: developing the fashion digital studio
Philip DELAMORE, University of the Arts London, UK (#36)

Apparel-oriented anthropometric database of Colombian military personnel
David MONTANO, Universidad de los Andes, Colombia (#50)

Anthropometrical measurements for three-dimensional clothing design
Inga DABOLINA, Riga Technical University, Latvia (#57)

17:00-17:30

Closing session – Room B1

Closing speech and announcements for 3D Body 2011
Nicola D'APUZZO, Hometrica Consulting, Switzerland

Conference highlights

Opening session

Tuesday, 09:00, Room B1

NASA's Anthropometric and Biomechanics Facility (USA)

The first technical speech of the conference will be held at the opening session by Sarah Margerum of the Anthropometry and Biomechanics Facility of NASA Johnson Space Center, Houston (USA).

NASA's Anthropometric and Biomechanics Facility (ABF) has shifted from using traditional linear anthropometry to exploring the capabilities of 3D scanning to provide volumetric anthropometric solutions for design. The key goals are to improve the human-system performance and develop new processes to aid in the design and evaluation of space systems. Four case studies will be presented that illustrate the improvement of human interfaces in space by using 3D body scanning technologies, in particular, regarding spacesuit, helmet and seats.

Keynote presentation for apparel, textile and fashion

Technical Session 2, Tuesday, 10:30, Room B1

Ran Machtinger – President and CEO of OptiTex Ltd. (Israel)

Ran Machtinger is the president and CEO of OptiTex Ltd. (Israel). Mr. Machtinger founded OptiTex Ltd in 1988 and he has taken the firm to its current status as the CAD leader in the cut-fabrics industries, evolving revolutionary technologies that are being implemented by major designers, manufacturer and educational institutions worldwide. The keynote speech will regard a few customers' case studies where joint implementations of OptiTex Virtual-Try-On solutions and 3D full body scanners from [TC]² and Human-Solutions are being used.

Keynote presentation for digital anthropometry

Technical Session 10, Wednesday, 11:00, Room B1

Jean-Marc Surville – LECTRA (France)

Jean-Marc Surville is an industrial engineer at LECTRA (France). He has participated at various national and international projects on 3D body scanning. He has a large practical experience in the treatment and processing of 3D scan data for the extraction of anthropometric information.

His keynote speech at the conference will regard the processing of 3D body scan data in different postures and the treatment of 3D scan data for the classification of the body shape into H.O.A.X.Y classes.

Keynote presentation for medical applications

Technical Session 3, Tuesday, 13:30, Room C

Laszlo Kovacs – Head of CAPS (Germany)

PD. Dr Laszlo Kovacs from the Department of Plastic Surgery and Hand Surgery of the Technical University München in Germany initiated the research group Computer Aided Plastic Surgery (CAPS). The scientific focus of CAPS evaluates innovative technologies for the 3-D assessment, digitalization and visualisation of the human body surface and soft tissues to implement computer aided surgery (CAS) into the field of aesthetic, plastic and reconstructive surgery.

His keynote speech at the conference will regard the use of 3-D surface imaging technologies in facial plastic, reconstructive, aesthetic surgery and in computer assisted breast surgery.

Welcome cocktail

Tuesday, 17:30-19:00, Foyer/Room B3

Dr. Giorgio Maric – Città di Lugano

Dr. Giorgio Maric, of the economic promotion office of the city of Lugano, will held an official welcome speech of the authorities of the hosting city. The welcome cocktail with local gastronomy products and wine of the region is kindly offered by the city of Lugano.

3dMD (USA) – Technical Session 6 and Exhibition

3dMD will present the new *3dMDbody System*.

With the ability to capture 4 human subjects per minute and no operator intervention for model assembly and/or data clean up, the next generation of 3D body scanners is now ready for high-throughput environments.

[TC]² (USA) – Technical Session 6 and Exhibition

[TC]² will be introducing its *Scan at Home* application.

In the near future, this application will enable consumers to create good quality 3D avatars and measurements alone without the use of a 3D body scanner and without issues of taking manual measurements.

XYZ RGB (Canada) – Technical Session 11 and Exhibition

XYZ RGB will present and demonstrate its new *Scanner Killer* technology.

With one or two digital SLR camera(s) anyone can now create high resolution, high accuracy, texture rich, UV referenced, 3D quality scan data in just 4 easy-to-follow steps: calibrate your camera(s) – photograph your subject – upload your files – extract your 3D data.

Exhibitors, sponsors and supporters

Exhibitors (Premium Sponsors) – Room B3

[TC]² (USA) – www.tc2.com

[TC]² is a world leader in 3D body scanning hardware and software. At the conference exhibition, [TC]² will demonstrate the unique capabilities of the 3D scanning system NX-16.

GFal e.V. (Germany) – www.gfai.de

GFal is a non-profit research association. At the conference exhibition, its department for 3D data processing will present the mobile full body scanning system BodyFit3D Cabin.

CAD Modelling Ergonomics Srl (Italy) – www.cadmodelling.it

CAD Modelling Ergonomics is best known for producing tailor dummies, fit mannequins and anthropometric fashion dummies for fitting control. The new portable body scanner Body-ScanFit will be exhibited at the conference.

Copernico (Switzerland) – [www.copernico](http://www.copernico.ch)

Copernico is a marketing initiative, created by the Finance and Economics Department of Canton Ticino, which aims to improve the region's visibility abroad and illustrate investment opportunities available for new business initiatives.

4DDynamics (Belgium) – www.4ddynamics.eu

4DDynamics is best known for its modular and configurable 3D white-light scanning system Mephisto. At the conference exhibition, 4DDynamics will demonstrate the new released 3D full body scanner composed of 4 scanning pods.

XYZ RGB (Canada) – www.xyzrgb.com

XYZ RGB is a world leading company offering 3D scanning services for the industrial and visual effect sectors. At the conference exhibition, XYZ RGB will demonstrate the revolutionary new 3D live body scanning technology.

3dMD (USA) – www.3dmd.com

3dMD is the world leader in 3D body scanning for medical applications, with well more than 800 3D cameras worldwide. The ultra-fast high-precision 3D surface imaging devices and the powerful software application software will be demonstrated at the conference exhibition.

Human Solutions (Germany) – www.human-solutions.com

Human Solutions is a world market leader for body scanning and ergonomics simulation. Systems from Human Solutions are used by more than 300 companies worldwide. At the conference exhibition, Human Solutions will demonstrate full body scanning systems.

Dimensional Imaging (UK) – www.di3d.com

Dimensional Imaging is a world-leading supplier of human body 3D & 4D surface image capture and analysis solutions. Dimensional Imaging systems are based on passive stereo photogrammetry technology.

Other sponsors

Hometrica Consulting - Dr. Nicola D'Apuzzo (Switzerland) – www.hometrica.ch

Hometrica Consulting is a leading international consulting firm in the sectors of 3D human body scanning and 3D human body measurement.

OptiTex Ltd. (Israel) – www.optitex.com

OptiTex is the world leading company for Virtual-Try-On solutions. The latest developments on real-time virtual draping technologies will be shown at the conference.

TOPCON Corporation (Japan) – www.topcon.com

TOPCON is a world leader in positioning equipment and eye care instruments. Among other products, TOPCON produces the photogrammetric 3D surface scanning system ImageMaster.

Artec Group Inc. (USA) – www.artec-group.com

Artec Group develops and sells extremely versatile 3D scanners. Artec 3D scanners work in real time, which makes them easy to use and customize for an array of applications.

IMAGINA (Monaco) – www.imagina.mc

Imagina is the European leading event promoting 3D & multi modal technologies and applications in widened market sectors such as industries, architecture, territory, media entertainment, medicine. Imagina will be held in Monaco from 1st to 3rd of February, 2011.

3D-Shape GmbH (Germany) – www.3d-shape.com

3D-Shape develops and markets optical 3D sensors for non-contact three-dimensional shape measurement and software for processing, analyzing and editing the 3D measurement data.

ViALUX GmbH (Germany) – www.vialux.de

ViALUX GmbH (Germany) develops and markets optical 3D sensors powered by DLP technology. ViALUX 3D Scanners make 3D scanning as easy as taking a photograph.

Supporters

Città di Lugano (Switzerland) – www.lugano.ch

The city of Lugano is supporting the conference. A welcome cocktail with local gastronomy products and wine of the region is hosted by the economic promotion office of Lugano.

Lugano Turismo (Switzerland) – www.lugano-tourism.ch

The tourist organization of Lugano is supporting the conference. The tourist office is taking care of the hotel reservations for attendees of the conference and provide any tourist information regarding Lugano and surrounding areas.

Rapelli SA (Switzerland) – www.rapelli.com

Rapelli is supporting the conference by offering local gastronomy products (salumi, cured meat products) for the welcome cocktail. The products of Rapelli strongly reflect the tradition and taste from Ticino since 1929.

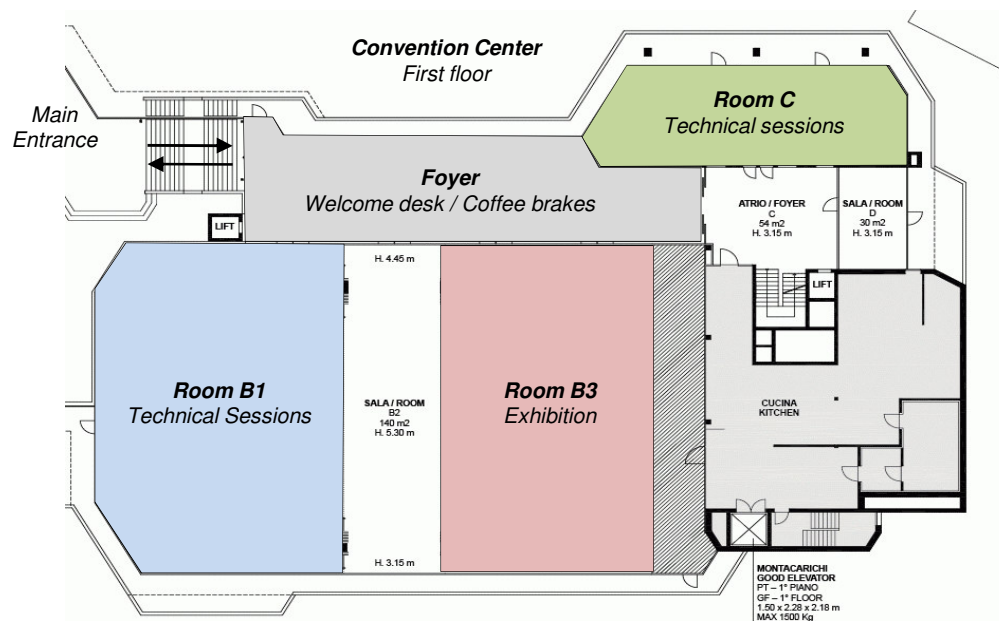

LATI (Switzerland) – www.lati.ch

LATI is supporting the conference by offering fresh, soft and semi hard cheese for the welcome cocktail. Established more than 90 years ago as an association of milk producers of Ticino, LATI is focusing now on cheese making.

Lugano convention center

Lunch Break: Restaurants, cafes and bars in the surroundings of the convention center

Program outline:

International Conference on 3D Body Scanning Technologies, Lugano, Switzerland, 19-20 October 2010				
Time	Tuesday 19 th October 2010		Wednesday 20 th October 2010	
08:00	Registration Welcome desk		Exhibition Setup	Exhibition Setup
09:00	Opening Session – Room B1 HC, C. Ticino, NASA		Technical Session 7 Medical applications II Room C	Technical Session 8 Body scanning Systems Room B1
10:00	Coffee Break		Coffee Break	
11:00	Technical Session 1 Medical scanning Systems Room C	Technical Session 2 * Body scanning for apparel I Room B1	Technical Session 9 Face scanning Room C	Technical Session 10 * Digital Anthropometry Room B1
12:00	Lunch Break		Lunch Break	
13:00	Lunch Break		Lunch Break	
14:00	Technical Session 3 * Medical applications I Room C	Technical Session 4 Body scanning for apparel II Room B1	Technical Session 11 Scanning Technologies Room C	Technical Session 12 Anthropometric Survey Room B1
15:00	Coffee Break		Coffee Break	
16:00	Technical Session 5 Foot scanning Room C	Technical Session 6 Full body scanning Room B1	Technical Session 13 Processing of scan data Room C	Technical Session 14 Body scanning for apparel III Room B1
17:00	Break		Closing – Room B1	
18:00	Welcome cocktail Foyer / Room B3		* session with keynote presentation

Announcement and call for paper

Asian Workshop on

3D Body Scanning Technologies

Tokyo, Japan, 19-20 April 2011

Organized by HOMETRICA CONSULTING - Dr. Nicola D'Apuzzo , www.3dbodyscanning.org/asia

Workshop description

The workshop topics cover relevant sectors of 3D body scanning, as digital anthropometry, face and body scanning for medicine, body and foot scanning for fashion and apparel, body size measurement campaigns and development of 3D body scanning systems. This workshop is part of the main international conference held in Lugano and has a special focus on the Asian market.

Workshop Site

Tokyo (東京) is a city that never ceases to amaze. Since the start of the Edo period in the 17th century, Tokyo has been the vibrant heart of the nation. With a history spanning 400 years, it boasts tourist sites both traditional and ultra modern. The Tokyo prefecture is part of the world's most populous metropolitan area with 35 to 39 million people and the world's largest metropolitan economy.

Workshop venue:

The workshop will take place at the facilities of AIST Tokyo Waterfront in Odaiba district. Odaiba is one of Tokyo's most interesting tourist spots and the highly popular shopping and entertainment district.

Tourist information and accommodation:

Touristic information about Tokyo and surrounding areas, as well as, hotels and other accommodations in Tokyo may be searched and obtained from the web site of the Japan tourism organization at: www.jnto.go.jp

Call for Papers – Submission of Abstracts

If you would like to present a paper at the workshop, please send an extended abstract (250-500 words and images) by e-mail to the following address: asia@3dbodyscanning.org

Important dates:

- Abstracts due: Nov. 30, 2010
- Author notification: Dec. 31, 2010
- Manuscript deadline: Feb. 28, 2011

More Information www.3dbodyscanning.org/asia
