Call for Sponsors and Exhibitors

Conference Description

This conference and its parallel exhibition aim to fulfill the demand for an international event focused on 3D human body scanning technologies, 3D human body measurement methods and applications. This event is the world leading technical and scientific platform dedicated to these specific fields. In the last two decades, 3D scanning technologies developed in other industrial sectors were successfully applied to the measurement and scanning of the human body. Methods and techniques are continuously ameliorated, more efficient and performing scanning systems are produced every year and new software tools are developed unceasingly.

The international conference and exhibition on 3D body scanning technologies serves as a platform for the information on the latest developments and interesting applications in various sectors, as well as, for building relationships and exchanging ideas between manufacturers, users, developers and researchers from around the world.

Conference Topics

The technical program consists of oral presentations, poster presentations and live demonstrations in (but not limited to) the following technical areas:
- 3D & 4D body and 3D & 4D face scanning methods, systems and technologies
- Active 3D body scanning technologies (laser scanning, white-light scanning, kinect)
- Passive body scanning methods (photogrammetry, visual-hull)
- Portable and hand-held scanning devices
- Full body scanning systems for the apparel and fashion sector
- Applications in medical sciences (plastic surgery, orthotics, prosthetics, forensics, dermatology, etc.)
- Foot scanning, custom footwear and orthopedics
- Digital anthropometry, anthropometric studies
- Body size measurement campaigns, fitting mannequins
- Biometrics and applications in security
- Applications in sport, health and fitness
- Human body and face modeling, animation and simulation
- Applications in virtual life, games and entertainment
- 3D body scanning for arts, sculpture and 3D printing

Registration Fees for Attendees

Each attendee/participant/delegate that wishes to attend the conference and visit the technical exhibition has to fill a registration form and pay the registration fees before the begin of the conference. The conference fees include admission to all sessions, the accompanying exhibition, coffee breaks and a copy of the proceedings.

Facts & Numbers

5th International Conference and Exhibition
3D BST 2014, 21-22 Oct., Lugano, Switzerland

Facts:
Main international event focused on 3D human body scanning technologies
Frequency: 1 year          Location: rotation Europe - North America - Asia

Numbers:
Attendees: 200-300 expected participants
Program: 14 technical sessions, 1 poster session, with over 70 presentations
Exhibition: 15-25 expected manufacturers

Profile of attendees/participants: (trends based on the data of past events)
Affiliation: Private industries and firms 65% Universities and research inst. 35%
Position: Managing / Professor 45% Technical / Operative 50% Staff / Student 5%
Role: User 35% Developer / OEM 30% New user / potential buyer 30% Other 5%

Conference Program

The technical program consists of oral and poster presentations grouped in different technical sessions according to the topics of the submitted papers.

Program outline
The preliminary program of the conference is structured, during two full days, in an opening session, 14 technical sessions (dual track), 1 poster session and a closing session. A parallel exhibition allows manufacturers of scanning equipment to demonstrate live their products and solutions to all attendees/visitors/participants.

Breaks and social events are planned in order to increase the possibilities for building relationships and exchanging ideas between attendees, visitors, authors, participants and exhibitors.

Levels and Costs for Sponsors and Exhibitors

Private companies, research/educational institutions or individuals are welcomed to participate at the technical exhibition or to become sponsors of the conference. The technical exhibition takes place in parallel to the conference and is accessible to all the attendees of the conference.

Three different packages are available for sponsors and/or exhibitors: GOLD, SILVER, BRONZE.

Hotels and Accommodation

Lugano offers a wide range of hotel rooms in all categories. For attendees wishing to be close and within walking distance to the conference venue, we suggest booking an hotel in Lugano; a list of selected hotels is available at the conference’s website. For attendees wishing to stay in Italy, Lugano is easily accessed by car or train (30 minutes from Como, 1 hour from Milan).

Access and Travel

Lugano is extremely easy to reach by public or private transportation; it is situated 70 km from Milan Malpensa airport (MXP) connected with convenient shuttle services and 200 km from Zurich airport (ZRH) with connections by rail. Lugano is within driving distance from major destinations: Como 40km, Milan 80km, Lucerne 170km, Zurich 200km, Basel 260km, Venice 340km, Geneva 370km, Florence 400km, Munich 420km, Stuttgart 430km, Frankfurt 590km, Rome 660km, Paris 770km, Vienna 830km.

Hotels and Accommodation

Lugano offers a wide range of hotel rooms in all categories. For attendees wishing to be close and within walking distance to the conference venue, we suggest booking an hotel in Lugano; a list of selected hotels is available at the conference’s website. For attendees wishing to stay in Italy, Lugano is easily accessed by car or train (30 minutes from Como, 1 hour from Milan).

Conference Venue

The conference and exhibition will be held at the Lugano convention center which is centrally located, right next to the splendid municipal park, directly on the lake shore. The center is located within easy walking distance of many hotels, shops and attractions.

Past Events - Facts & Numbers

4th International Conference and Exhibition
3DBST 2013, 19-20 Nov., Long Beach CA, USA
Attendees: 203 participants from 25 different countries
Program: 1 opening session, 14 technical sessions, 70 presentations
Exhibition: 10 manufactures, 9 body scanning systems, 8 world premieres

3rd International Conference and Exhibition
3DBST 2012, 16-17 Oct., Lugano, Switzerland
Attendees: 198 participants from 31 different countries
Program: 1 opening session, 14 technical sessions, 58 presentations
Exhibition: 15 manufactures, 12 body scanning systems, 5 world premieres

1st Asian Workshop
A3DBST 2012, 17-18 Apr., Tokyo, Japan
Attendees: 83 participants from 11 different countries
Program: 7 technical sessions, 29 presentations, 1 open discussion
Exhibition: 7 manufactures, 7 body scanning systems, 2 world premieres

2nd International Conference
3DBST 2011, 25-26 Oct., Lugano, Switzerland
Attendees: 205 participants from 28 different countries
Program: 1 opening session, 12 technical sessions, 57 presentations
Exhibition: 15 manufactures, 14 body scanning systems, 5 world premieres

1st International Conference
3DBST 2010, 19-20 Oct., Lugano, Switzerland
Attendees: 210 participants from 30 different countries
Program: 1 opening session, 14 technical sessions, 62 presentations
Exhibition: 8 manufactures, 8 body scanning systems, 4 world premieres

Past Events - World and International Premieres

Some of the world and international premieres presented our past events.

3DBST 2013 - Long Beach CA, USA
Size Stream (USA)
New enhancements to the Size Stream 3D body scanner
Styku (USA)
The new tablet based body scanner MeasureMe based on Kinect
SpaceVision (Japan)
The new portable Traveling Type 3D Full Body Scanner

3DBST 2012 - Lugano, Switzerland
3dMD (USA) – Max Plank Institute (Germany)
Presentation of jointly developed technology
TechMed 3D (Canada) – Creaform (Canada)
The new scanner from Creaform, GO! SCAN 3D
Elinvisin (Lithouania) – UCS (Slovenia)
The new jointly developed foot scanner

A3DBST 2012 - Tokyo, Japan
[TC]² (USA)
The new low cost full body scanner with Primsense sensors

3DBST 2011 - Lugano, Switzerland
XYZ RGB (Canada)
New releases: Scanner Killer BASE and PRO suite
Telmat Industrie (France)
The new version of SYMCAD II full body scanner
corpus.e (Germany)
New concept: modular body scanner of corpus.e

3DBST 2010 - Lugano, Switzerland
OptiTex (Israel)
New web-based virtual fit services
3dMD (USA)
The new whole body scanner 3dMDbody System
